

Installation Video-More Infant Carriers installed without the base

Learn how to install your infant carrier using just the shoulder and lap belts. Because you won't need to use the car seat base, this is a great way to travel with your infant in taxis or other vehicles. You will also learn how to properly secure your infant in the carrier using the 5-point harness.

This video will teach you how to install the following infant carriers:

- Baby Trend LatchLoc
- Britax BabySafe
- Century Smart Fit
- Century Avanta
- Chicco Key Fit
- Combi Centre
- Cosco/Safety 1st/Eddie Bauer infant seats (many models, read your owner's manual)
- Graco SafeSeat
- Graco Snug Ride (models sold in U.S.)
